EDUCATION

P.P. Savani University 2023-2027

B.Tech in Computer Engineering Surat,Gujrat

CGPA – 8.25

PROFILE SUMMARY

Dedicated Computer Engineering student with strong technical and analytical skills in programming and web development. Experienced in working with HTML, CSS, JavaScript, React, C, C++, and Java through academic projects and self-learning. Passionate about technology and eager to apply my skills in a professional environment.

PROJECTS

AI System Health Dashboard

- Developed an AI-based dashboard to monitor CPU, RAM, and Disk usage in real time, helping users track overall system performance through interactive graphs and live updates.
- Implemented risk analysis, smart suggestions, and chatbot interaction features using Python, Streamlit, and Plotly to provide a user-friendly system monitoring experience.

Smart Expense Tracker

- Built a full-stack expense tracker application that allows users to add, manage, and categorize daily transactions while tracking real-time balance updates.
- Developed responsive frontend and backend functionalities using React, Node.js, Express.js, and MongoDB for efficient expense management and secure data storage.

TECHNICAL SKILLS

Languages: C, C++, Java, JavaScript **Core Concepts:** Data Structure, Operating System

Web Technologies: HTML, CSS, React, Bootstrap, WordPress **Tools:** Git, Github, VS Code, Streamlit

SOFT SKILLS

Problem Solving Mindset, Quick Learning Ability, Team work, Creativity& Innovation, Time Management
